Roxbury Nov 17: 1827

My dear friend —

I have shipped as you will see by the bill of Lading on the other side. what Grape Cuttings I had at Newton and those from Roxbury and have been very particular in having them packed — and numbered them myself to prevent mistake — as your Son requested.

No. 1. Grizzley Frontinac
2 White D'
3. Black Hamburg } from Newton
4 White Sweetwater — very good
5 Black Cluster — fine bearer and good fruit from Roxbury Garden

The Speran you requested is in one bundle not numbered — your Son wrote for those as well as the Grape Cuttings — but as I view you both as one I send to you The Grape Cutting from Mr Mayo V Gardner Greens I will get soon — I wrote for a few things for my friend Lemist — you did not say in your letter that you had noted it — I wish you would — and send your order for the amount as you may please. I wish you to say to your Son that the Grapes from Pomroy shall come soon — having read his letter with a request for them — If you wish me to address your Son seporately you will please say so in your next —

with much esteem Respect your
Jon Lunewell

I also send 20 pounds of Grapes in which I hope you will receive some relish as well as use as you please — your Son wrote for more than were sent

Boston Nov. 19 1827

Received on board Brig Sun N Howes
